**RE: Program Site Letter of Confirmation**

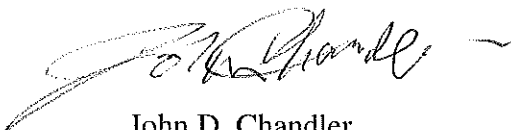

Dear Mrs. Trotter:

The Student Activities Committee of **Benjamin E. Mays High School** agrees to participate as a school site for Wholistic Stress Control Institute, Inc (WSCI) and Green Gelo (a subsidiary of Vision for Youth) for the year 2011-2012. Programming is scheduled to be held after school during the 2011-2012 school year. It appears that your proposal and the schools current mission complement each other. Our contribution to this partnership will include referring 50 students with an emphasis on varied ethnicities and students with special needs.

WSCI has provided the Atlanta community with over 20 years of prevention and intervention services in the areas of abstinence education, mental health, substance abuse, violence, juvenile delinquency and HIV/AIDS prevention services for youth. Your collaboration with Green Gelo to offer an artistic outlet for youth to express themselves through poetry and videography will empower them to deal with difficult issues and discover new methods in problem solving.

We view this project as very necessary and we congratulate you for moving forward in addressing youth health issues through art programming. We additionally support the fact that your project encompasses all ethnicities and students with special needs. Please feel free to contact me if additional information is needed.

Sincerely,

John D. Chandler  
Academy Coordinator / Student Activities Coordinator
