In regard to the upcoming turn of events for teen poets, I am submitting this letter to not only support the efforts of Wholistic Stress Control and Green Gelo but to also restate my interest in allowing all teen poetic events to be held at my facility at no cost to Wholistic or Vision for Youth.

I believe that the teens in our community will benefit from this project and I support it 100%! I am willing to provide anything else that might be needed inside the facility to ensure a successful event each Saturday. I will allow the use of Salon 724 for as long as needed. All equipment will be removed prior to each event to ensure safety and to provide the space needed for teenagers to sit down and share their poetry.

Please let me know what else will be needed to ensure a successful event. Thanks.

Sincerely,

Meko Tye
